

Hugo Newsletter | January 2019

Welcome to the January issue of the Hugo Newsletter! This monthly newsletter covers everything happening in the world of Hugo and static site generators. As always, we're looking for feedback. Please contact us on [Twitter](#) or email me (Ricardo@Feliciano.Tech) to tell us what you like and dislike about the newsletter so we can make it better for future issues.

This issue is a short (and late) one as many projects tend to quiet down over the month of December. The highlight for me was the v0.53 release which brought several enhancements and a couple of features, but again made Hugo faster. Incredible.

Welcome to 2019, here's to a great year ahead of us!

- Ricardo (FelicianoTech)
